### TRAVEL PROGRAM

#### Day 1

The voyage begins where the world drops off: Ushuaia, Argentina, reputed to be the southernmost city on the planet, located on the far southern tip of South America. Starting in the afternoon, you embark from mountain-fringed Beagle Channel for the rest of the evening.

#### Days 2 and 3

Over the next two days on the Drake Passage, you catch a taste of life from the perspective of the polar explorers who first braved these regions: cool salt breezes, rolling seas, maybe even a fin whale blasting up sea spray. After passing the Antarctic Convergence – Antarctica's natural boundary, formed when northflowing cold waters collide with warmer subantarctic seas – you are in the circum-Antarctic upwelling zone. Not only does the marine life change, the avian life changes too: A variety of albatrosses and petrels show up, along with Cape pigeons and southern fulmars. Then, near the South Shetlands Islands, the first icebergs flash into sight.

#### Days 4 - 8

Gray stone peaks sketched with snow, towers of broken blue-white ice, and dramatically different wildlife below and above. You first pass the snow-capped Melchior Islands and Schollaert Channel, sailing between Brabant and Anvers Islands.

Sites you may visit include:

- Cuverville Island – Straddling up between Rongé Island and the Antarctic Peninsula, Cuverville houses a massive colony of gentoo penguins as well as pairs of breeding brown skuas.
- Danco Island – Activities here may focus on the gentoo penguins nesting on the island, in addition to the Weddell and crabeater seals that can be found nearby.
- Neko Harbour – An epic landscape of mammoth glaciers and endless wind-carved snow. Opportunities for Zodiac cruising and kayaking provide you the closest possible view of the icecrusted alpine peaks.
- Paradise Bay – You may be able to take a Zodiac cruise in these sprawling, ice-flecked waters, where you have a good chance of seeing humpback and minke whales.
- Port Lockroy – After sailing through the Neumayer Channel, you get a chance to visit the former British research station – now a museum and post office – of Port Lockroy on Goudier Island. You may also be able to partake in activities around Jougla Point, meeting gentoo penguins and blue-eyed shags. There are great opportunities for kayaking and camping here.
- Pléneau & Petermann Islands – If the ice allows it, you may sail through the Lemaire Channel in search of Adélie penguins and blue-eyed shags. There's also a good chance you'll encounter humpback and minke whales here, as well as leopard seals.
- Wilhelmina Bay & Guvernøren – This is a great place to spot humpback whales. You also may embark on a Zodiac cruise ending at the ghostly wreck of the Guvernøren, a whaling vessel that caught fire here in 1915. Around the Melchior Islands, amid a frozen landscape peopled with icebergs, you may encounter even more whales, leopard seals, and crabeater seals. Conditions on

the Drake Passage determine the exact time of departure.

### **Days 9 and 10**

Your return voyage is far from lonely. While crossing the Drake, you're again greeted by the vast array of seabirds remembered from the passage south.

### **Day 11**

Disembark in Ushuaia.
