

TO THE NORTHERNMOST VILLAGE IN THE WORLD BY DOGSLED

Journey in a traditional way guided by Inuit hunters in northern Greenland

A 200 Kilometres journey by dogsled in the remote region of Thule reaching Siorapaluk, the most northerly village in the world inhabited naturally. A trip through chaotic ice, sea ice, glaciers, fjords, icebergs. Visit picturesque Inuit villages whose inhabitants still retain many of their ancestral customs and lifestyle.

Accompanied by Inuit hunters born in this region, the crossing by dogsled will pass over zones of frozen sea ice, where hundreds of icebergs, that flow freely in summer, now are still trapped by the frozen sea. The whole route runs along a abrupt coastline of rugged mountains and glacier tongues that follows one another without end, and where the chaotic of the frozen sea consists a landscape of spectacular beauty.

Throughout the route, the Inuit will go hunting seals and walruses to feed the dogs. These magnificent hunters are descendants of the Eskimos who helped Peary in the early twentieth century to conquer the Geographic North Pole and are considered the best travelers in polar history.

Inuit villages will be visited, as almost nearly abandoned Qeqertarsuaq, or Siorapaluk which is the northernmost village in the world. In Thule region where in summer its inhabitants still hunt narwhals harpooning them from a kayak. We will sleep in tents, huts or Inuit homes.

A journey where you can recall how was the life of ancient Inuit, that on the basics, has hardly changed. The trip represents a unique opportunity to experience the eternal Arctic of the turn of the century in which man alone with his dogs and his skills as a hunter might face the most hostile nature in their daily live. We will live with the last descendants of the proud and strong Inuhuit, the "Great men".

TRAVEL PROGRAM

Day 1

- Flight country of residence – Copenhagen

Important note: Depending on the airport of origin, flight schedules and flight connections of these may require an extra day of travel on the departure trip.

SUPPLEMENTS

Boat navigation to see icebergs - Ask for the price
Boat route to see the largest icebergs of the North Pole.

Sermermiut settlement - Ask for the price
Visit to the ancient Inuit settlement of Sermermiut, located in one of the areas declared World Heritage by UNESCO.

NOTES

- During the route each traveller will be with a Inuit guide in a dogsled. The journey will be in total autonomy without any snowmobile supporting the group. Traveling almost exactly as it was 100 years ago.
 - Although we have food for humans, the Inuit will go hunting during the route to supplement the dog food, as is the traditional method.
 - Due to severe limitations on aircraft weight and dogsleds, it is important not to carry as personal baggage over 20 kilos per person.
-
